NEW DELHI-2 (INDIA);

The 24th December, 1951

K. MITRA,

for Registrar General, India.

# NATIONAL SAVINGS

Available in three different series, maturing after 5, 7 and 12 years. The yield is 3%, 3.57% and 4.16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of income-tax and super-tax and is not taken into account, in arriving at the total taxable income

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000, and two joint holders upto Rs, 50,000/-.

## **CERTIFICATES**

Bank of India in other places transacting treasury business.

Full particulars obtainable from Post Offices, District Organisers of the Small Eavings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simis.

Deposits accepted in multiples of Rs. 100/- upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3½% per annum (free of all taxes and not taken into account in assessing the total taxable income) is paid or remitted to the depositor's address every year. Deposits accepted at offices of the Reserve Bank of India at Bombay Calcutta, Delhi & Madras, and Branches of The Imperial

TEN-YEAR
REASURY SAVINGS

Full particulars obtainable from District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioner, Simia. **DEPOSITS** 

AC.275

TODAY'S BEST INVESTMENT FOR SMALL SAVERS

Births and deaths from principal diseases in towns with a population of over 30,000 in India for the week ending the 1st December, 1951.

<sup>•</sup> In cases of towns where there has been an abnormal movement of population, it is likely that the population estimates may not be sufficiently reliable for calculating the birth and death rates.

Explanation of symbols used:—B.=Birtus; B.R.=Birth Rate; C.=Clolera; S.=Smallpox; P.=Plague; F.=Fevers; D.D.=Dy sentery and Diarrhoea; R.D.=Respiratory Diseases; M.D.=Maternal Deaths: D.R.=Death Rate; I.D.=Infantile Deaths (included it total deaths).

#### REMARKS

ending the 1st December, 1951, relate to 199 an estimated population of 27,416 thousands. number of towns is 266 and their population is housands. Thus 75% of the total number of towns 84% of the total population is covered in this The numbers of births and deaths recorded in were 20,138 and 9,152 representing birth and of 38.2 and 17.4 per thousand of population

(Parts A & C).—The data here relate to 176 an estimated population of 24,072 thousands. about Assam and Bihar could not be included, number of towns is 223 and their population is usands. Thus 79% of the total numbers of towns 37% of the total population is covered. The

numbers of births and deaths recorded in these towns were 18,292 and 8,498 representing birth and death rates of 39.5 and 18.4 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 23 towns with an estimated population of 3,344 thousands. The total number of towns is 43 and their population is 4,909 thousands. Thus 53% of the total number of towns representing 68% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,846 and 654 representing birth and death rates of 28.7 and 10.2 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
